HANDLING, STORAGE, PACKING, PRESERVATION AND DELIVERY			
	<p>HANDLING, STORAGE, PACKING, PRESERVATION AND DELIVERY</p> <ol style="list-style-type: none"> 1. Store products (Assemblies, T/C or RTD Sensors, Thermowells, etc.) in original packing. They should be stored in a climate controlled space, but at 		

		<p>a minimum, the space should be protected from the elements, be above 0°C, and must remain dry at all times.</p> <ol style="list-style-type: none"> 2. All storage areas shall be positively identified to prevent damage, deterioration or misuse of product. 3. Once original packing has been opened, visually inspect product for flaws due to manufacturing / shipping (see warranty statement). 4. If packing appears to have been damaged in shipping, then the box/crate must be opened immediately and product inspected. Damaged containers shall be reported back to WIKA Instruments, LP USA within 5 business days of receiving. 5. If original packaging has been opened (i.e. inspection upon receipt) but product is to remain in storage, packaging should be restored to original state whenever practical. 6. Product left in opened packaging must be periodically inspected for damage, deterioration or misuse. 7. After inspection release at WIKA Instruments, LP, any further inspection requirements are per plant specifications.
