| 1    | 1    | <p><b>MICROWAVE DIGESTION SYSTEM MULTIWAVE GO PLUS 60HZ PACKAGE WITH ROTOR 12HVT50, ANTON PAAR PN 131070</b></p> <p>Multiwave GO Plus is a microwave digestion system, optimized for economic routine analysis of environmental samples, food quality control, plant material and other biological material. A single magnetron delivers up to 1000 W microwave power in an unpulsed mode over the full power range. The sophisticated software prevents thermal overshoots and the design of the microwave applicator provides utmost field density, allowing efficient and uniform heating across all vessel positions.</p> <p>The exhaust unit of Multiwave GO Plus continuously removes the reaction heat and gases, which may escape during operation to extend the durability of the used materials. After a finished run the vessels are cooled down automatically. The sensor system of Multiwave GO Plus enables automatic detection of each reaction vessel, as well as monitoring of the rotor revolution, to ensure uniform microwave heating and prevent localized overheating</p> <p>Comes with:<br/>Mains cable with plug, 3 m exhaust hose, basic tools and instruction manual.</p> <p>Included basic tools:<br/>1 Multiwave GO Plus Oven 60Hz (147087)<br/>1 Rotor 12HVT50 (133015 with 12 pressure vessels),<br/>1 Handling Tool for HVT50 (103438),<br/>1 IR calibrator for Multiwave GO Plus (131034)<br/>1 IR sensor foil<br/>Power supply: 230 V, 60 Hz, 2680 VA</p> | \$20.364,00        | \$20.364,00   |
